WORK EXPERIENCE

Front-End Consultant (Full-Time) | ALTEN MOROCCO (Bouygues Telecom)

📅 Since 11/2022   ⚲ Fes, Morocco

As a Front-End consultant within the Bouygues Telecom customer portal team, I contributed to enhancing the user experience by managing the following aspects:

- Professionally and responsively managing customer requests, ensuring their continuous satisfaction.
- **Implementation of displays of new options, such as TV channels, Wi-Fi repeaters, set-top boxes, and other features to enrich the customer offering.**
- **Improvement of user journeys:** Redesign of the migration and relocation process interfaces, addition of new offers to simplify and streamline these processes.
- **Optimization of customer journeys:** Revamp of customer journeys, especially in billing, consumption, and delivery spaces, to ensure a smooth and efficient experience.
- **Project migration from jQuery to ReactJS:** Actively contributed to the migration process of our project from jQuery to ReactJS by working on migration by sections.
- Collaboration within an Agile team of 10 members, including a Scrum Master, a 4-member testing team, and a 6-person development team (2 Front-End and 4 Back-End), with a methodology of working in sprints, daily meetings, task estimations, retrospectives, and project management via JIRA.
Technical Environment: HTML5, CSS3, JavaScript, JQuery, React Js, PHP 7, Smarty, Jira, Confluence, Git.

VueJS Front-End Developer (Freelance, Part-Time) | Bhomecare

📅 Since 01/2023   ⚲ Honolulu, United States

BHomecare is a project involving the creation of a versatile SaaS system designed to fully manage the operational process of a home care agency. This project encompassed various aspects including human resource management, client care, and recommendation management.
Tasks:

- **Integration of Figma Design:** Successfully integrated Figma designs into the application using Vue.js 3 for elements such as the registration interface and space management (admin, employee, recommendation, candidate). We are currently in the process of integrating other designs, ensuring precise design implementation.
- **HTTP Requests to Django REST framework backend:** Set up HTTP requests to communicate with the Django REST framework backend, allowing the retrieval and manipulation of necessary data for the application.
- **Agile Methodology:** Collaborated closely with an agile team using JIRA for project management and Slack for communication.
Technical Environment: VueJs 3, Vuex, Django REST Framework, Docker, Figma (Software), Jira, Git, Bitbucket, Confluence, Slack.

ReactJs Front-End Developer (Freelance) | Upwork

📅 Since 07/2023

GRIDFOCUS is a SaaS application aimed at facilitating the convergence of data and energy networks.
Tasks:
- **Redesign of the Application:** Took charge of a complete redesign of the application interface to enhance its aesthetics and usability using Styled Components and Material UI Theme.
- **Development of New Features:** Developed the authentication and logout interfaces, as well as features for adding, editing, and deleting interfaces using Material UI. **Technical Environment:** React Js, Redux, TypeScript, Material UI.

Front-End Developer (Freelance) | Upwork, bisonte.hu

📅 09/2022 - 03/2023

bisonte.hu is an e-commerce website specializing in the distribution of agricultural products.
- Integration of Figma Design: Successfully integrated Figma design into the application, including product catalog, category menu, cart page, and various other elements. **Technical Environment:** Django Template Language, HTML5, CSS3, Bootstrap 5, Django, Docker, Git, GitHub.

Mathematics Teacher | Ministry of National Education, Morocco

📅 09/2017 - 11/2022   📍 Fes, Morocco

- Taught mathematics courses following the current educational program.
- Prepared lessons and pedagogical activities to help students understand mathematical concepts.
- Evaluated students' progress by organizing exams, tests, assignments, and continuous assessments.
- Participated in educational meetings with other teaching staff and administration members to discuss students' progress, teaching methods, and education-related issues.

EDUCATION
